EDUCATION

Bachelor of Science

Electrical Engineering

University of Ilorin

2021 – Till Date

Location: Ilorin, Kwara State

SKILLS

- ❖ React
- ❖ Javascript
- ❖ Tailwind
- ❖ HTML
- ❖ CSS

CAREER OBJECTIVE

Proficient front-end developer renowned for seamless collaboration with senior developers, while investing additional time to cultivate mentorship. Driven by an unwavering dedication to personal advancement and software development , I am primed to employ my coding passion within a talented engineering collective, collectively forging high-caliber solutions.

PROJECTS

E-Commerce Website (React, Redux Toolkit):

- Developed a dynamic e-commerce platform using React and Redux.
- Enabling users to browse and purchase products seamlessly.

Task Management App (React Hooks, Firebase)

- Created a task management application using React Hooks and integrated Firebase for real-time data synchronization.
- Users can add, edit, and mark tasks as complete, with changes instantly reflected across devices for efficient task tracking.

Education Resource Website (React, Material-UI)

- Developed a comprehensive education resource website using React and Material-UI to provide students with a user-friendly platform for accessing learning materials.
- Implemented interactive features such as topic categorization, search functionality, and user profiles, facilitating seamless navigation and engagement with educational content

Weather Dashboard (React, API Integration)

- Designed a weather dashboard utilizing React to display current weather conditions and forecasts for user-specified locations.
- Utilized HTML, CSS, and JavaScript to create 100+ responsive landing pages for both company and client.
- Maintained graphic standards and branding throughout the product's interfaces.
